Community-Based Participatory Research By Karen A. Hacker

Community Based Participatory Research by **Dr. Karen Hacker** presents a *practical approach* to CBPR by describing how an individual researcher might understand and then actually conduct CBPR research. This how-to book provides a concise overview of CBPR theoretical underpinnings, methods considerations, and ethical issues in an accessible format interspersed with real life case examples that can accompany other methodologic texts in multiple disciplines.

Editorial Review

About the Author

Dr. Karen Hacker, M.D., MPH, is the executive director of the Institute for Community Health, a community research organization dedicated to CBPR (Community Based Participatory Research) in Cambridge, MA. She is an associate professor of medicine at the Harvard Medical School and Harvard School of Public Health, where she teaches Community-Based Participatory Action Research. She serves as the Senior Medical Director for Public and Community Health at the Cambridge Health Alliance and provides leadership for population health initiatives as well as practicing as a primary care physician. She received her M.D. from Northwestern University, her adolescent medicine fellowship from Children's Hospital of Los Angeles, and her master's from Boston University. She has extensive experience with CBPR and has worked with diverse community partners to catalyze change in both practice and research environments focusing on topics that range from child mental health and immigrant health to obesity prevention.

Users Review

From reader reviews:

Lonnie Bowers:

The actual book Community-Based Participatory Research has a lot info on it. So when you read this book you can get a lot of gain. The book was written by the very famous author. The author makes some research previous to write this book. This specific book very easy to read you can obtain the point easily after scanning this book.

Francis Mason:

Reading a book being new life style in this year; every people loves to examine a book. When you learn a book you can get a great deal of benefit. When you read textbooks, you can improve your knowledge, mainly because book has a lot of information into it. The information that you will get depend on what sorts of book that you have read. If you need to get information about your study, you can read education books, but if you act like you want to entertain yourself you are able to a fiction books, these us novel, comics, and soon. The Community-Based Participatory Research offer you a new experience in reading a book.

Shawn Proctor:

Many people spending their time by playing outside having friends, fun activity using family or just watching TV 24 hours a day. You can have new activity to enjoy your whole day by reading a book. Ugh, you think reading a book can actually hard because you have to accept the book everywhere? It fine you can have the e-book, delivering everywhere you want in your Smartphone. Like Community-Based Participatory Research which is keeping the e-book version. So , why not try out this book? Let's observe.

Stephanie Bush:

What is your hobby? Have you heard that will question when you got college students? We believe that that issue was given by teacher to the students. Many kinds of hobby, All people has different hobby. So you know that little person including reading or as studying become their hobby. You have to know that reading is very important in addition to book as to be the factor. Book is important thing to incorporate you knowledge, except your current teacher or lecturer. You get good news or update about something by book. Numerous books that can you decide to try be your object. One of them is actually Community-Based Participatory Research.
