Penetration Testing: Network Threat Testing (EC-Council Press) By EC-Council

The Security Analyst Series from EC-Council Press is comprised of five books covering a broad base of topics in advanced penetration testing and information security analysis. The content of this series is designed to expose the reader to groundbreaking methodologies in conducting thorough information security analysis, as well as advanced penetration testing techniques. Armed with the knowledge from the Security Analyst series, along with proper experience, readers will be able to perform the intensive assessments required to effectively identify and mitigate risks to the security of the organization's infrastructure. The series prepares readers for the EC-Council Certified Security Analyst (E|CSA) certification. PENETRATION TESTING: NETWORK THREAT TESTING coverage includes penetration testing of denial of service, password cracking, applications, database, viruses and Trojans, log management, data leakage and file integrity.

Editorial Review

About the Author

The International Council of E-Commerce Consultants (EC-Council) is a member-based organization that certifies individuals in various e-business and security skills. It is the owner and developer of the world famous Certified Ethical Hacker course, Computer Hacking Forensics Investigator program, License Penetration Tester program and various other programs offered in over 60 countries around the globe. These certifications are recognized worldwide and have received endorsements from various government agencies including the US Federal Government via the Montgomery GI Bill, and the US Government National Security Agency (NSA) and the Committee on National Security Systems (CNSS) certifying EC-Council Network Security Administrator (ENSA) program for meeting the 4011 training standard for information security professionals.

Users Review

From reader reviews:

April Robles:

What do you concerning book? It is not important to you? Or just adding material when you really need something to explain what yours problem? How about your free time? Or are you busy individual? If you don't have spare time to complete others business, it is make you feel bored faster. And you have free time? What did you do? Every person has many questions above. They need to answer that question because just their can do this. It said that about reserve. Book is familiar in each person. Yes, it is suitable. Because start from on guardería until university need this kind of Penetration Testing: Network Threat Testing (EC-Council Press) to read.

Christine Pena:
