The Tiger's Way: A U.S. Private's Best Chance for Survival By H. John Poole

This book is not just fun reading for determined riflemen, but vital self-defense info. for all security ranks and jobs. **The Pentagon lost on the ground 40 years ago**, and its squad tactics haven't changed much. Herein lie more advanced techniques for every category of short-range combat. They will permit better small-unit maneuvers (and fewer losses) for every intensity of combat. As Western ordnance turned more lethal, Eastern armies came to rely on tiny semi-autonomous elements. Most provide every rifleman with guerrilla training. Until the Pentagon follows suit, its own infantry enlistees will have less field skill, initiative, and decision-making experience than their Communist counterparts. In any close encounter, they will die unnecessarily and their commanders suffer too many casualties.

Editorial Review

Review

"If you train infantry, buy this book. I guarantee you will learn something." -- *British Army Review Magazine, Winter 2003*

"[S]o long as the Pentagon thinks only about programs and money, American soldiers and Marines will need to discover post-machinegun tactics on their own. Gunny Poole's books offer them a readily available way to do so." -- *Military.com, 2003*

"[This book] will bridge the gap that has been unknowingly created in our rifleman." -- *Leatherneck Magazine, February 2004*

"[M]any Afghani and Iraqi insurgents are using the Eastern military tactics Poole describes. This makes the book an eye opener." -- *National Guard Magazine, January 2004*

"The book ... explains (how) ... privates, fire teams, and squads ... can acquire short-range proficiency without a massive bureaucratic overhaul." -- *Newport News Daily Press, May 2004*

"All of it [the book] will make you better prepared for the future fight. I recommend it to all infantrymen (former commander of Camp Lejeune)." -- *Maj.Gen. Ray L. Smith USMC (Ret.), July 2003*

"John Poole ... [weaves] tactical lessons into ... exciting set of books. I would highly recommend them to all NCOs and officers (former head of CENTCOM)." -- *Gen. Anthony C. Zinni USMC (Ret.), 26 March 2004*

"Poole is a professional teacher of military tactics and has an extensive knowledge of the Eastern enemy." -- *Fort Leonard Wood Guidon, 4 March 2004*

"There is much to be learned by studying this remarkable book (former head of History & Museums Division, HQMC)." -- *B.Gen. Edwin Howard Simmons USMC (Ret.), July 2003*

"John Poole continues to reduce U.S. casualties by providing information every soldier needs (member of the special operations community)." -- *Col. Joe E. Kilgore U.S. Army, 2003*

"[This book] should be required reading for all U.S. military personnel. John Poole conclusively demonstrates that most Eastern soldiers receive ninja-like training. That makes them well ahead of our troops in initiative, field skills, and tactical-decision making--and better able to survive on the expanded battlefield of the future (publisher emeritus of Presidio Press)." -- *Col. Robert V. Kane U.S. Army (Ret.), 2003*

"Our military says they train as they fight. If this is true, they won't make it in real combat such as ... in WWII, Korea and Vietnam. This book tells how to win against a real enemy who shoots back. A must read for every Grunt and their leaders (author of 'About Face.')" -- *Col. David H. Hackworth U.S. Army (Ret.), 2003*

"Sun Tzu wrote 2500 years ago, 'Know yourself, know your enemy, 100 battles, 100 victories.' This book is a key to American victories in the 21st Century (professional military historian)." -- *Kim Holien, 2003*

"John Poole's previous books have done American fighting men [an] immense service. His latest promises more of the same, at a time when American soldiers and Marines are facing exactly the kinds of opponents he is writing about (father of 4th-Generation Warfare theory)." -- *William S. Lind, 2003*

"[The] Tiger's Way' ... [is] a warrior's guide to victory." --*Camp Lejeune Globe, 2003*

"The book has numerous ... illustrations that depict various armies' methods of infiltrating, how they fight in the dark and urban areas, as well as ways to counteract these threats." --*Fort Myer Pentagon, 2003*

"Poole ... believes that while America was preoccupied with technology, the rest of the world may have evolved tactically.... [He] hopes to prepare U.S. soldiers for the type of short-range combat used by our adversaries in the East." --*Oberlin Alumni Magazine, 2003*

" 'The effective response [in Iraq and elsewhere] is to decentralize [control over] U.S. forces, giving more authority to the sergeants who lead platoons working city neighborhoods, getting to know the people' said Poole, who details these ideas in a new book." --*Newhouse News Service, 2003*

From the Publisher

The Tiger's Way reveals—for the first time in any detail—how the Eastern soldier/guerrilla and his fire team fight at short range. It also contains the sensory-perception and obscure movement techniques that U.S. Soldiers and Marines will need to survive the inevitable one-on-one encounter. With 96 illustrations, 12 maps, and 1600 endnotes, The Tiger's Way entertains while it educates. Maj.Gen. Ray L. "E-Tool" Smith USMC(Ret.) says the book "will make you better prepared for the future fight." As America's foes traditionally go after its support establishment, the publisher additionally recommends this book to all noninfantry, law enforcement, and security personnel.

From the Author

This book has been written for the U.S. enlistee of every service and job description, and his police counterpart. Our enemies are far more proficient at short-range combat than you have been led to believe. His favorite ground-attack objective is a noncombat support unit. The wars in Iraq and Afghanistan are now guerrilla wars. To stand the best chance of surviving them (or the terrorist threat at home), you must gain the initiative, field skill, and tactical-decision-making experience of an East Asian guerrilla. This book will show you how to acquire those abilities during your off-duty hours.
