Anomaly (Schrodinger's Consortium Book 1) By Tonya Kuper

*Reality is only an illusion.
Except for those who can control it...*

Worst. Birthday. Ever.

My first boyfriend dumped me—happy birthday, Josie!—my dad is who knows where, I have some weird virus that makes me want to hurl, and now my ex is licking another girl's tonsils. Oh, and I'm officially the same age as my brother was when he died. Yeah, today is about as fun-filled as the swamps of Dagobah. But then weird things start happening...

Like I make something materialize just by *thinking* about it. When hottily-hot badass Reid Wentworth shows up on a motorcycle, everything changes. Like, *everything*. Who I am. My family. What really happened to my brother. *Existence*. I am Oculi, and I have the ability to change reality with my thoughts. Now Reid, in all his hotness, is charged with guiding and protecting me as I begin learning how to bend reality. And he's the only thing standing between me and the secret organization that wants me dead...

Editorial Review

Review

“Debut author Kuper’s sleek prose?saturated with pop-culture references?invites both nerds and the uninitiated into the world of the Oculi. ... great twists and the positive message that reality is ours to shape.”
?Kirkus Reviews on *Anomaly*

About the Author

Tonya Kuper's debut is ANOMALY, the first in the Schrodinger's Consortium Series, a young adult science fiction trilogy releasing November 4, 2014 by Entangled Teen. She lives in Omaha, Nebraska with her husband and two boys. She's an alt rock junkie, a Star Wars dork, and is in love with Sherlock.

Users Review

From reader reviews:

Deborah Martins:

Information is provisions for individuals to get better life, information these days can get by anyone from everywhere. The information can be a expertise or any news even an issue. What people must be consider when those information which is inside former life are challenging be find than now is taking seriously which one is appropriate to believe or which one the particular resource are convinced. If you have the unstable resource then you obtain it as your main information there will be huge disadvantage for you. All those possibilities will not happen throughout you if you take Anomaly (Schrodinger's Consortium Book 1) as the daily resource information.

Johnny Harper:

Reading a e-book tends to be new life style on this era globalization. With reading you can get a lot of information that will give you benefit in your life. With book everyone in this world can share their idea. Ebooks can also inspire a lot of people. A great deal of author can inspire their very own reader with their story or perhaps their experience. Not only situation that share in the textbooks. But also they write about advantage about something that you need case in point. How to get the good score toefl, or how to teach your young ones, there are many kinds of book which exist now. The authors these days always try to improve their expertise in writing, they also doing some research before they write for their book. One of them is this Anomaly (Schrodinger's Consortium Book 1).

Ronnie Chaney:

In this era globalization it is important to someone to receive information. The information will make someone to understand the condition of the world. The condition of the world makes the information easier to share. You can find a lot of personal references to get information example: internet, newspapers, book, and soon. You will observe that now, a lot of publisher which print many kinds of book. Typically the book that recommended to your account is Anomaly (Schrodinger's Consortium Book 1) this book consist a lot of

the information on the condition of this world now. That book was represented how can the world has grown up. The dialect styles that writer value to explain it is easy to understand. Typically the writer made some research when he makes this book. That's why this book suited all of you.

Annie Resnick:

Is it you who having spare time in that case spend it whole day by simply watching television programs or just lying down on the bed? Do you need something new? This Anomaly (Schrodinger's Consortium Book 1) can be the response, oh how comes? A book you know. You are thus out of date, spending your spare time by reading in this fresh era is common not a geek activity. So what these textbooks have than the others?
