Histology: A Text and Atlas: With Cell and Molecular Biology By Michael H. Ross, Gordon I. Kaye, Wojciech Pawlina

The only combination text/atlas in histology. Now in an updated Fourth Edition, this best-selling text and atlas is a brilliant presentation of histologic descriptions and high-resolution, full colour digital micrographs. A stunning new art programme provides a level of visual detail that students won't find in any other histology text. FEATURES: - A distinct emphasis on relevant cell and molecular biology, which includes the most current data from significant studies - Chapter-ending atlas sections that newly incorporate full colour and digital labelling for greater clarity - Functional Correlations boxes use specific examples to show relationships between structure and function - Newly designed Clinical Correlations boxes that teach students how histology relates to clinical practice - Extensive text revisions that make content more readable and user-friendly This outstanding resource is now available with an image bank of all 800+ images from the text, with unlabelled and labelled versions included. JPGs are provided for downloading into presentation software, with PDFs for printing onto transparencies or paper

Editorial Review

Users Review

From reader reviews:

James Brecht:

Hey guys, do you would like to finds a new book to study? May be the book with the name Histology: A Text and Atlas: With Cell and Molecular Biology suitable to you? The book was written by well known writer in this era. The particular book untitled Histology: A Text and Atlas: With Cell and Molecular Biology is the one of several books that will everyone read now. That book was inspired a lot of people in the world. When you read this guide you will enter the new dimension that you ever know before. The author explained their strategy in the simple way, thus all of people can easily to recognise the core of this e-book. This book will give you a great deal of information about this world now. So you can see the represented of the world in this particular book.

Jonathan Scott:

The actual book Histology: A Text and Atlas: With Cell and Molecular Biology will bring you to definitely the new experience of reading a book. The author style to spell out the idea is very unique. Should you try to find new book to study, this book very suitable to you. The book Histology: A Text and Atlas: With Cell and Molecular Biology is much recommended to you to read. You can also get the e-book through the official web site, so you can more readily to read the book.

Daniel Watkins:

Playing with family in the park, coming to see the sea world or hanging out with close friends is thing that usually you might have done when you have spare time, subsequently why you don't try thing that really opposite from that. One particular activity that make you not feeling tired but still relaxing, trilling like on roller coaster you have been ride on and with addition details. Even you love Histology: A Text and Atlas: With Cell and Molecular Biology, you could enjoy both. It is good combination right, you still want to miss it? What kind of hangout type is it? Oh can happen its mind hangout people. What? Still don't buy it, oh come on its named reading friends.

Susan Douglas:

Your reading sixth sense will not betray you actually, why because this Histology: A Text and Atlas: With Cell and Molecular Biology guide written by well-known writer who really knows well how to make book which can be understand by anyone who also read the book. Written throughout good manner for you, dripping every ideas and producing skill only for eliminate your own personal hunger then you still doubt

Histology: A Text and Atlas: With Cell and Molecular Biology as good book not just by the cover but also with the content. This is one publication that can break don't evaluate book by its deal with, so do you still needing another sixth sense to pick this particular!?! Oh come on your examining sixth sense already alerted you so why you have to listening to yet another sixth sense.
