Islamic Ethics of Life: Abortion, War, and Euthanasia (Studies in Comparative Religion (Paperback)) From Brand: University of South Carolina Press

Islamic Ethics of Life considers three of the most contentious ethical issues of our time-abortion, war, and euthanasia-from the Muslim perspective. Distinguished scholars of Islamic studies have collaborated to produce a volume that both integrates Muslim thinking into the field of applied ethics and introduces readers to an aspect of the religion long overlooked in the West. This collective effort sets forth the relationship between Islamic ethics and law, clearly revealing the complexity and richness of the Islamic tradition as well as its responsiveness to these controversial modern issues. The contributors analyze classical sources and survey the modern ethical landscape to identify guiding principles within Islamic ethical thought. Clarifying the importance of pragmatism in Islamic decision making, the contributors also offer case studies related to specialized topics, including "wrongful birth" claims, terrorist attacks, and brain death. The case studies elicit possible variations on common Muslim perspectives. The contributors situate Muslim ethics relative to Christian and secular accounts of the value of human life, exposing surprising similarities and differences.

Editorial Review

From the Inside Flap

"Islamic Ethics of Life makes a significant contribution to the discussion of religious ethics, not least by addressing the need for an anthology convenient for classroom use. Those who teach courses in religious ethics will find the essays a useful resource for displaying contemporary Islamic judgments regarding abortion, war, and euthanasia. Those who teach courses in Islamic Studies will similarly find the volume a useful supplement to the standards of Islamic tradition."--John Kelsay, Richard L.
