The Deep Sky Observer's Guide: Astronomical Observing Lists Detailing Over 1,300 Night Sky Objects for Binoculars and Small Telescopes By Richard J. Bartlett

The Deep Sky Observer's Guide offers you the night sky at your fingertips. As an amateur astronomer, you want to know what's up tonight and you don't always have the time to plan ahead. Maybe the clouds have suddenly parted. Maybe you're at a star party. Maybe you want to challenge yourself with something new but don't know where to start.

The Deep Sky Observer's Guide can solve these problems in a conveniently sized paperback that easily fits in your back pocket. Take it outside and let the guide suggest any one of over 1,300 deep sky objects, all visible with a small telescope and many accessible via binoculars.

- * Multiple stars with 2" or more of separation
- * Open clusters up to magnitude 9
- * Nebulae up to magnitude 10
- * Globular clusters up to magnitude 10
- * Planetary nebulae up to magnitude 12
- * Galaxies up to magnitude 12
- * Includes lists of deep sky objects for the entire sky with R.A. and declination for each and accompanying images for many

Whether you use a GoTo or prefer to star hop, no matter where you live in the world and no matter what time of year or night, the *Deep Sky Observer's Guide* is the indispensable companion for every adventure among the stars.

Editorial Review

Users Review

From reader reviews:

Deanna Reed:

In other case, little people like to read book The Deep Sky Observer's Guide: Astronomical Observing Lists Detailing Over 1,300 Night Sky Objects for Binoculars and Small Telescopes. You can choose the best book if you appreciate reading a book. Providing we know about how is important the book The Deep Sky Observer's Guide: Astronomical Observing Lists Detailing Over 1,300 Night Sky Objects for Binoculars and Small Telescopes. You can add understanding and of course you can around the world by a book. Absolutely right, simply because from book you can understand everything! From your country right up until foreign or abroad you will be known. About simple thing until wonderful thing you could know that. In this era, we are able to open a book or searching by internet product. It is called e-book. You can use it when you feel uninterested to go to the library. Let's examine.

Julie Berkey:

Information is provisions for individuals to get better life, information presently can get by anyone with everywhere. The information can be a understanding or any news even a problem. What people must be consider while those information which is within the former life are challenging be find than now is taking seriously which one is suitable to believe or which one typically the resource are convinced. If you obtain the unstable resource then you have it as your main information you will see huge disadvantage for you. All those possibilities will not happen in you if you take The Deep Sky Observer's Guide: Astronomical Observing Lists Detailing Over 1,300 Night Sky Objects for Binoculars and Small Telescopes as the daily resource information.

Maria Couch:

Spent a free time and energy to be fun activity to try and do! A lot of people spent their spare time with their family, or all their friends. Usually they carrying out activity like watching television, about to beach, or picnic from the park. They actually doing ditto every week. Do you feel it? Would you like to something different to fill your own free time/ holiday? Could be reading a book could be option to fill your no cost time/ holiday. The first thing that you'll ask may be what kinds of publication that you should read. If you want to try look for book, may be the e-book untitled The Deep Sky Observer's Guide: Astronomical Observing Lists Detailing Over 1,300 Night Sky Objects for Binoculars and Small Telescopes can be very good book to read. May be it can be best activity to you.

Aaron Edgington:

What is your hobby? Have you heard this question when you got students? We believe that that concern was given by teacher to their students. Many kinds of hobby, Everyone has different hobby. And also you know that little person just like reading or as examining become their hobby. You should know that reading is very important as well as book as to be the point. Book is important thing to incorporate you knowledge, except your personal teacher or lecturer. You see good news or update in relation to something by book. Amount types of books that can you choose to use be your object. One of them is niagra The Deep Sky Observer's Guide: Astronomical Observing Lists Detailing Over 1,300 Night Sky Objects for Binoculars and Small Telescopes.
