Printing Ink Manual By Robert Leach

The first edition of the Printing Ink Manual was published by the Society of British Printing Ink Manufacturers in 1961 to fill the need for an authoritative textbook on printing technology, which would serve both as a training manual and a reliable reference book for everyday use. The book soon became established as a standard source of information on printing inks and reached its fourth edition by 1988. This, the fifth edition, is being published only five years later, so rapid has been the development in technology. The objective of the Printing Ink Manual remains unchanged. It is a practical handbook designed for use by everyone engaged in the printing ink industry and the associated industries. It provides all the information required by the ink technical for the day-to-day formulation of printing inks. It supplies the factory manager with details of the latest equipment and manufacturing methods, including large-scale production, and gives guidance on achieving quality assessment and total quality management specifications. Care has been taken to maintain the value of the Manual for training both technical personnel and others who requiresome knowledge of inks. Readers with little scientific knowledge will not find difficulty in using the Manual, but sufficient chemistry and physics have been included to provide an explanation of the underlying principles and theories governing the behaviour of inks for use by the advanced technologist. Suppliers of raw materials, substrate manufacturers, printers and print users will find the book a valuable source of information.

Editorial Review

Review

'The Printing Ink Manual has clearly become an internationally recognised authority on all aspects of printing ink. The European ink industry will find the fifth edition essential to all involved in and practicing printing ink. Students, raw material suppliers, schools and printers will find it an important reference book.'

H.A. Lentze, Secretary General European Confederation of Paint Printing Ink and Artists Colours Manufacturers Association (CEPE)

'We think the Printing Ink Manual is a very special book and therefore welcome its fifth edition. We offer the Manual to all people who attend the NPIRI summer course. I have found it to be the best available book today.'

James H. Sutphin, Executive Director National Association of Printing Ink Manufacturers (NAPIM)

'The Printing Ink Manual has already become established as the standard source of practical information for everyone engaged in the printing ink industry. The fifth edition builds on this unrivalled reputation and the Oil and Colour Chemists Association is pleased to endorse this book and recommend it to its members.'

Chris Pacey-Day, General Secretary Oil and Colour Chemists Association (OCCA)

About the Author

Dr Robert Leach worked for almost 40 years for Fishburn Printing Ink Company (now BASF) as Research Chemist, Head of Laboratories and then as Technical Director. He has edited the Printing Ink Manual since its first edition in 1961. *Ray Pierce* has worked for many years in printing ink developments, initially at Fishburn Ink Company (now BASF) as Chief Chemist and then as Technical Director. He was then European Technical Director of Inmont Corporation before becoming European Technical Director of BASF Packaging Ink Division. He was a lecturer and examiner in ink science for City and Guilds. He currently works as a consultant to the industry.

Users Review

From reader reviews:

Elizabeth Talbot:

The book Printing Ink Manual can give more knowledge and also the precise product information about everything you want. Exactly why must we leave the great thing like a book Printing Ink Manual? A few of you have a different opinion about guide. But one aim in which book can give many information for us. It is absolutely correct. Right now, try to closer together with your book. Knowledge or details that you take for that, it is possible to give for each other; you may share all of these. Book Printing Ink Manual has simple shape but the truth is know: it has great and massive function for you. You can appear the enormous world by open up and read a e-book. So it is very wonderful.

Sharon Hite:

Book is to be different for every grade. Book for children until eventually adult are different content. To be sure that book is very important for us. The book Printing Ink Manual was making you to know about other know-how and of course you can take more information. It is very advantages for you. The reserve Printing Ink Manual is not only giving you much more new information but also to be your friend when you feel

bored. You can spend your own spend time to read your book. Try to make relationship together with the book Printing Ink Manual. You never feel lose out for everything in the event you read some books.

John Hawkins:

Typically the book Printing Ink Manual has a lot associated with on it. So when you check out this book you can get a lot of gain. The book was published by the very famous author. Mcdougal makes some research previous to write this book. This specific book very easy to read you can find the point easily after looking over this book.

Sandra Williams:

This Printing Ink Manual is completely new way for you who has intense curiosity to look for some information given it relief your hunger of knowledge. Getting deeper you in it getting knowledge more you know otherwise you who still having tiny amount of digest in reading this Printing Ink Manual can be the light food for you because the information inside this kind of book is easy to get by anyone. These books acquire itself in the form which can be reachable by anyone, yes I mean in the e-book contact form. People who think that in e-book form make them feel tired even dizzy this guide is the answer. So there is no in reading a publication especially this one. You can find what you are looking for. It should be here for an individual. So , don't miss the item! Just read this e-book sort for your better life along with knowledge.
