### Natures Answer For Cancer By Rick Simpson

The e-book Phoenix Tears, Rick Simpson Oil, Nature's Answer For Cancer is a summary of information that is currently available about the use of cannabis/hemp oil as medicine. It includes detailed information about how to produce and use the Rick Simpson Oil in the treatment of practically all illnesses.

It also includes a special chapter "Cannabis in the Political World" by Max Igan and a comprehensive interview about the many uses of the oil, written by Jindrich Bayer. Everyone who considers using cannabis/hemp extracts as medicine should read this e-book.

The term "Rick Simpson Oil" refers to extremely potent and sedative purified decarboxylated cannabis resin with 95-98% THC. This substance can be used with great success to cure, treat or control cancer, pain, diabetes, arthritis, asthma, infections, inflammations, blood pressure, depressions, sleeping problems etc. Read more about how to produce and use this oil properly in the e-book.

Quote from the e-book:

"How did you come to discover how to cure cancer and many other illnesses with hemp?"

"I consider myself just one of many who have found a way to cure cancer and I certainly was not the first one to produce an essential oil from the hemp plant. A radio broadcast told me that THC (tetrahydrocannabinol) kills cancer cells way back in the 1970s, so I do not claim that it was me who found the cure. Still, it does appear that I am the first to supply this medication to vast numbers of patients to treat their cancers and other conditions in a more effective and sensible way.

In addition, I continued to report my findings openly to the general public after the government and all they control turned their backs on this issue. Since this plant has been used in medicine for thousands of years, I really do not think that anyone can make the claim that they alone discovered its true medical values.

The only thing that I can really claim is that I discovered the proper way to produce and use this substance and I developed and published a protocol to make it more simple for patients to enjoy its use. As often as I could, I provided the medicine free of charge and I openly reported my findings to anyone who would

listen, expecting that sooner or later someone would do something about it.”
