How Cars Work By Tom Newton

How Cars Work is a completely illustrated primer describing the 250 most important car parts and how they work. This mini test book includes wonderfully simple line drawings and clear language to describe all the automotive systems as well as a glossary, index, and a test after each chapter. How Cars Work provides the basic vocabulary and mechanical knowledge to help a reader talk intelligently with mechanics understand shop manuals, and diagnosis car problems. Tom Newton guides the reader with a one topic per page format that delivers information in bite size chunks, just right for teenage boys. How Cars Work was the most stolen book at Kennedy High School in Richmond California! Teachers like our title and so do librarians. The History channel, Modern Marvels-2000, Actuality Productions, Inc is using How Cars Work to train staff for a documentary on automobiles.

Editorial Review

From the Publisher

Author and illustrator Tom Newton is a school psychologist. How Cars Work was developed as a high interest mini-textbook for teens, but is also used by automotive service managers and mechanics to help customers understand repairs. This book can be found in adult literacy programs, high schools, and middle schools. How Cars Work makes it fun and easy to learn how cars work.

From the Author

"When I opened my tutoring center I could not find enough interesting reading material for my teenage students, especially the boys. So I started writing short descriptions about car parts aimed at improving reading comprehension. I used simple drawings to help students visualize and associate the car parts with the words. Eventually I had enough material for a complete book and, well, this is it!"

About the Author

Author Tom Newton owns and operates the Newton Learning Center, a tutoring service specializing in reading problems. A school psychologist and former graduate student of Marshall McLuhan Newton explains: "When I opened my tutoring center I couldn't find enough reading material for my teenage students, especially the boys. So I started writing short descriptions about car parts aimed at improving reading comprehension. I used simple drawings to help students visualize and associate the car parts with the words. Eventually I had enough material for a complete car book and..well...this is it!"

Users Review

From reader reviews:

Edward Christensen:

What do you about book? It is not important with you? Or just adding material when you require something to explain what the one you have problem? How about your spare time? Or are you busy man? If you don't have spare time to try and do others business, it is make one feel bored faster. And you have time? What did you do? Every person has many questions above. They have to answer that question because just their can do which. It said that about book. Book is familiar on every person. Yes, it is proper. Because start from on jardín de infancia until university need that How Cars Work to read.

Walter Harman:
