PHP and MySQL 24-Hour Trainer

By Andrea Tarr

PHP and MySQL 24-Hour Trainer By Andrea Tarr

Step-by-step lessons for using PHP and MySQL in a unique book-and-video combination

Assuming no previous experience with PHP or MySQL, this book-and-video package is ideal reading for anyone who wants to go beyond HTML/CSS in order to provide clients with the most dynamic web sites possible. The approachable tone breaks down the basics of programming and PHP and MySQL in individual lessons starting with the installation of the programs necessary to run PHP. You begin with a static web site and then watch and learn as PHP functionality is added as you work through the lessons.

When working with databases, the MySQL database is introduced with demonstrations that show how to interact with it. The accompanying videos enhance your learning experience, as each lesson in the book is portrayed in the video exercises.

Lessons include:
? Getting started with PHP
? Setting up your workspace
? Adding PHP to a web page
? Learning PHP syntax
? Working with variables
? Debugging code
? Working with complex data
? Making decisions
? Repeating program steps
? Learning about scope
? Reusing code with functions
? Creating forms
? Introducing object-oriented programming
? Defining classes
? Using classes
? Using advanced techniques
? Handling errors
? Writing secure code

? Introducing databases
? Introducing MySQL
? Creating and connecting to the
? Creating tables
? Entering data
? Selecting data
? Using multiple tables
? Changing data
? Deleting data
? Preventing database security issues
? Creating user logins
? Turn the case study into a content management system

Note: As part of the print version of this title, video lessons are included on DVD. For e-book versions, video lessons can be accessed at wrox.com using a link provided in the interior of the e-book.

Editorial Review

From the Back Cover
Take static pages and turn them into a dynamic website!

Perhaps you know how to create a static website using HTML/CSS, but now you want to learn how to create dynamic, data-driven websites. If you're new to PHP and MySQL, this book-and-DVD package is an ideal introduction to working with website pages that contain a mixture of HTML and PHP/MySQL. Author Andrea Tarr starts with what you know—an HTML/CSS website—and step by step she teaches you how to replace and enhance the site using PHP to create and manipulate your HTML pages and MySQL to bring in your data. You learn how to design, create, and use databases with MySQL, both within PHP programs and using the popular phpMyAdmin program. Explaining the programming principles as you go along, this book-and-DVD combination provides you with a solid understanding of the fundamentals of PHP and the basics of object-oriented programming.

PHP and MySQL 24-Hour Trainer:

- Escorts you through preparing your computer to run PHP and MySQL by downloading and installing free software
- Explains what variables are, how to work with them, and how to debug your programs
- Zeros in on how databases work and how to design them
- Shares tips for working with MySQL in a PHP program
- Details ways to create tables, enter data, select data, change data, and delete data

The 24-Hour Trainer is a unique book-and-DVD package that delivers step-by-step lessons for handling real-world scenarios. Each lesson in the book is accompanied by an instructional video that reinforces the content while providing additional explanations and tips.

On the DVD

Don't just learn—do!

The lessons within the book are each accompanied by an instructional demonstration on the DVD.

You'll learn to:

- Manipulate your website using PHP
- Use object-oriented programming
- Handle errors and write secure code
- Design a database
- Integrate MySQL with PHP
- Process HTML forms
- Create user logins, a mini content management system, and a data-driven menu

Please see the DVD appendix for details and complete system requirements.

About the Author

Andrea Tarr has been a programmer and IT manager for 30 years and now spends her time programming websites using PHP/MySQL. She is a member of the Production Leadership Team for Joomla!, a popular PHP/MySQL-based content management system.

Users Review

From reader reviews:

Helen Elder:

Reading a book tends to be new life style on this era globalization. With studying you can get a lot of information which will give you benefit in your life. Having book everyone in this world can share their idea. Publications can also inspire a lot of people. Many author can inspire their very own reader with their story or perhaps their experience. Not only the storyline that share in the guides. But also they write about the ability about something that you need example of this. How to get the good score toefl, or how to teach your young ones, there are many kinds of book that you can get now. The authors these days always try to improve their ability in writing, they also doing some investigation before they write to their book. One of them is this PHP and MySQL 24-Hour Trainer.

Steve Pratt:

Often the book PHP and MySQL 24-Hour Trainer has a lot info on it. So when you check out this book you can get a lot of benefit. The book was published by the very famous author. This articles author makes some research before write this book. This particular book very easy to read you can obtain the point easily after looking over this book.

Robert Heck:

Playing with family within a park, coming to see the sea world or hanging out with buddies is thing that usually you may have done when you have spare time, then why you don't try thing that really opposite from that. One particular activity that make you not experience tired but still relaxing, trilling like on roller coaster you are ride on and with addition info. Even you love PHP and MySQL 24-Hour Trainer, it is possible to enjoy both. It is fine combination right, you still would like to miss it? What kind of hang type is it? Oh can occur its mind hangout guys. What? Still don't understand it, oh come on its known as reading friends.

Betty Blake:

This PHP and MySQL 24-Hour Trainer is great reserve for you because the content which can be full of information for you who have always deal with world and get to make decision every minute. This specific book reveal it info accurately using great manage word or we can state no rambling sentences in it. So if you are read this hurriedly you can have whole info in it. Doesn't mean it only will give you straight forward sentences but tricky core information with attractive delivering sentences. Having PHP and MySQL 24-Hour Trainer in your hand like getting the world in your arm, facts in it is not ridiculous just one. We can say that no e-book that offer you world throughout ten or fifteen small right but this e-book already do that. So , this is good reading book. Hey there Mr. and Mrs. occupied do you still doubt this?
