### **Distinct Identities: Minority Women in U.S. Politics (Routledge Series on Identity Politics)** By Nadia E. Brown, Sarah Allen Gershon

Minority women in the United States draw from their unique personal experiences, born of their identities, to impact American politics. Whether as political elites or as average citizens, minority women demonstrate that they have a unique voice that more often than not centers on their visions of justice, equality, and fairness.

In this volume, Dr. Nadia E. Brown and Sarah Allen Gershon seek to present studies of minority women that highlight how they are similar and dissimilar to other groups of women or minorities, as well as variations within groups of minority women. Current demographic and political trends suggest that minority women will be at the forefront of shaping U.S. politics. Yet, scholars still have very little understanding of how these populations will behave politically. This book provides a detailed view of how minority women will utilize their sheer numbers, collective voting behavior, policy preferences, and roles as elected officials to impact American politics.?

The scholarship on intersectionality in this volume seeks to push beyond disciplinary constraints to think more holistically about the politics of identity.

## **Editorial Review**

Review

**'Drawing on a wide range of perspectives and methods of analysis, the contributors in this book offer a nuanced look into the myriad ways minority women influence, and are influenced by, the political world. This is a necessary addition to our examination of institutions, voters, and elections, as it requires us to consider the power of identity and the growing influence of women of color.'** - *Kathleen Dolan, University of Wisconsin Milwaukee, USA*

**'Pulling together original and thoughtful contributions from leading experts in the field on the role of women of color in politics and using a mix of methodological and theoretical approaches, the contributors to this edited volume delve deeply into the reality of the political experiences of Black, Latina, Asian American, and Native American women. The book is essential reading for those interested in truly understanding modern U.S. politics and the role played by women of color as candidates and in the general public.'** - *Melissa Michelson, Menlo College, USA*

About the Author

**Nadia Brown** is Associate Professor in the Department of Political Science & African American Studies and Research Center at Purdue University. Her research demonstrates the importance of marginalized identities in political representation and participation.

Sarah Allen Gershon is an Associate Professor of Political Science at Georgia State University. Her research focuses on the incorporation of traditionally underrepresented groups (including women, and racial and ethnic minorities) into the American political system.
