Metaphor and Meaning in Psychotherapy By Ellen Y. Siegelman

When therapists hear patients talk of feeling "imprisoned," "burning with rage," "trapped," or "unequipped," they are witnessing manifestations of the symbolic attitude, the hallmark of all depth psychology. Most clinicians naturally respond to and use metaphors, but they often fail to understand the full potential of metaphoric images. This volume, in addressing the transforming power of metaphor, demonstrates how clinicians can deepen the therapeutic encounter.

Editorial Review

Review

"I think it is a valuable book and only wish I had had it in my hands when I was a student in training to be a psychoanalyst nearly 50 years ago." --Marion Milner, Ph.D., Member, British Psycho-analytic Society; author of *On Not Being Able to Paint*

"This lucid presentation of the healing uses of metaphor comes from a Jungian psychotherapist who has not been afraid to learn from psychoanalysts. Psychoanalysis too has much to learn from her wise exposition of the musical method of creative symbolization as a process of moving personality forward." --John Beebe, M.D., Member, San Francisco Society of Jungian Analysts; editor, *The San Francisco Jung Institute Library Journal*

"Siegelman's book on metaphor is a welcome addition to any therapist's library because it cannot fail to sensitize the reader to the countless ways in which novel uses of language can function in a clinical setting." --Donald P. Spence in *Contemporary Psychology*

"Superb....Gives us both a theoretical and clinical understanding of the uses of the poetic imagination in depth psychotherapy....Full of rich clinical examples....*Metaphor and Meaning in Psychotherapy* is a rare book in our field, one in which the medium and the message are in harmony. Siegelman's prose is elegant, studded with stunning imagery and clearly articulated ideas." --Naomi Ruth Lowinsky in *Psychological Perspectives*

"An excellent work which can make the effective use of metaphor more conscious in our daily practice of ." (*Psychotherapy* 1993-10-17)

"One does not have to be psychoanalytic or dynamic to appreciate her thoughtful and compassionate look at the process of therapy. In fact, the connections she draws among language, affect, and perceived experience have something to offer therapists from a variety of orientations....*Metaphor & Meaning* depicts the art in therapy and, therefore, speaks to the artist. Her beautiful examples of therapy are interspersed with theory and discussion to provide sustenance for the intellect as well." (*International Journal of Personal Construct Psychology* 1993-10-17)
